DAVID HORMYK: True Story
India Release
Rating: 9 out of 10

This man has the voice of an angel! There is absolutely EVERYTHING appealing about this debut CD by David Hormyk! Yes, this is a debut CD, but that doesn't mean David is new to the music industry! In fact, he isn't! He has spent most of his career behind the grand piano as a producer for various acts in the industry, including **Boyzone**, **Kelly Rowland** and **Cheri Dennis**. You may also recognize him as a regular on "Bill for Children" and from his various modeling jobs and commercials for Burlington Coat Factory, Club Monaco, Capri Sun and Bud Light Lime! But right now, it's all about the music! David Hormyk, certainly has a way of penning and creating a beautiful piece of music! As his bio states, David's music can be described as a blend of **Herman's** and **James Blunt**. I totally agree with that assessment as the music is relaxing and soothing! The lyrics are beautifully poignant and relevant! And his musical ability is incredible! His piano playing fills you up and takes you to another place, and his voice is heavenly mesmerizing...the combination of the two is simply enthralling! In addition to those fine qualities, David plays guitar and bass, does drum design and also has done all of the songwriting, arrangement, mixing, mastering and production on this album. Quite impressive set of skills. 15 (say) favorite tunes include "Hard to Make a Friend" (Whoa, baby, this one is a singer), "Tied in the Middle" and "It Takes You Believe." If you're a fan of **Herman's**, **James Blunt**, **Monie Day**, **John Mayer** or maybe even **Snow Patrol**, David Hormyk is someone you definitely need to check out! This album is very highly recommended!!
